```
library(dplyr)

rladies_global %>%
  filter(city %in% c ("Córdoba", "Ushuaia"))
```

RMarkdown: cómo hacer que tus análisis sean reproducibles

¿Qué es RMarkdown (Rmd)?

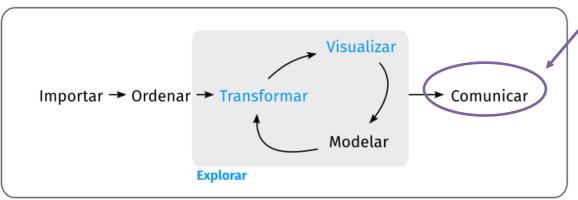

Tipo de archivo que integra prosa, código R y resultados.

RMarkdown permite generación de informes, presentaciones, páginas web, tesis y libros, entre otros.

¿Para qué sirve Rmd?

Programar

- Para comunicarse con quienes están interesados en los resultados y las conclusiones de un analisis (no necesariamente en el código usado para el analisis).
- Para colaboraciones con otros interesados en el código, resultados (cómo se alcanzaron), conclusiones.
- Se puede usar como un cuaderno de anotaciones moderno en donde uno intercala código R, resultados y comentarios. Mucho mejor que un script habitual.

¿Cómo funciona Rmd?

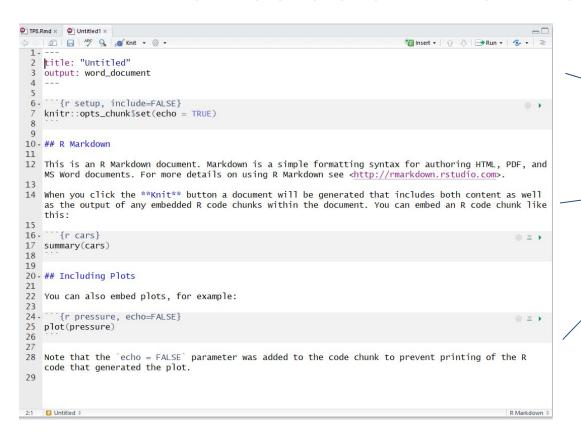

- Flujo de trabajo para la producción del archivo final en cualquier formato (.docx, .html, .pdf, etc)
- Varios archivos intermedios y ad hoc MUY IMPORTANTE: todos en el mismo directorio -> Trabajo con Proyectos en R

Partes de un Archivo .Rmd

Taller de R Markdown

Como hacer que tu analisis sean reproducibles

R Ladies

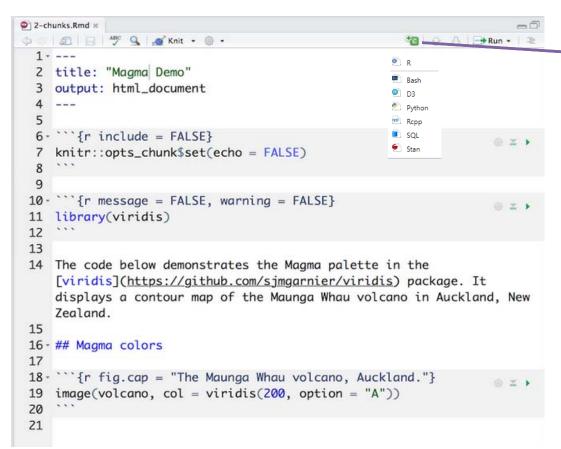

- R Markdown
- · Including Plots

¿Qué es un chunk?

Es un bloque de código R que R Markdown va a ejecutar e incluir los resultados en el ambiente de R.

Si tienen una salida explícita (por ej., tabla, gráfico) estos resultados pueden incluirse o no en el documento final.

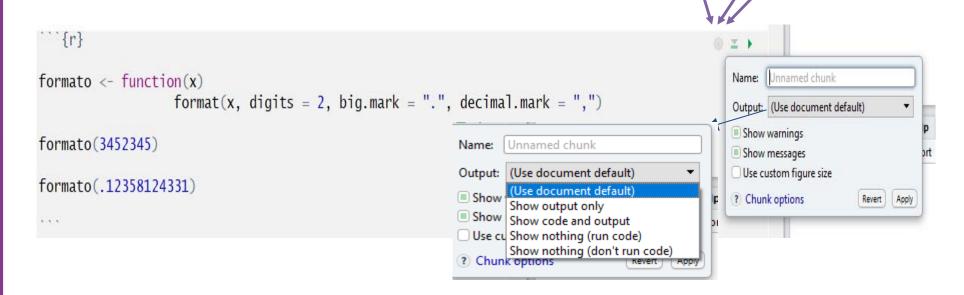

Haciendo click acá se genera el chunk, te recomendamos usar Ctrl+Alt+i o tipeando ```{r} ``` (estos tics si no los tienen en el teclado se hacen con alt + 96).

Cada chunk se maneja con sus propias opciones o puede configurarse de manera general en el primer chunk para que los chunks funcionen de igual manera.

Opciones de los Chunks

Opciones de los Chunks

Opción	Efecto
eval	evalúa el código (para depurar error)
Include = FALSE	ejecuta el código
echo= FALSE	no aparece el código, pero muestra los resultados en el informe final
message = FALSE o warning = FALSE	impide que mensajes o advertencias aparezcan en el archivo final.
fig.show = 'hide'	esconde los gráficos
error = TRUE	Ayuda a detectar dónde hay un error. Avisa del error pero continua hasta el final.

Ejecutando un Chunk

```

                                                                                                                                                                                                                                 Run All
  13
  14 When you click the **Knit** button a document will be generated that includes both content as well
              as the output of any embedded R code chunks within the document. You can embed an R code chunk like
              this:
  15
  16 - ```{r cars}
  17 summary(cars)
  18
  19
  20 - ## Including Plots
  22 You can also embed plots, for example:
  24 - ``{r pressure, echo=FALSE}
  25 plot(pressure)
  26
             Note that the 'echo = FALSE' parameter was added to the code chunk to prevent printing of the R
              code that generated the plot.
  29
```

Tablas

knitr::kable(mtcars[, 1:5])

Al principio puede parecer que no son muy fáciles de personalizar, pero hay varias opciones para que se vean bien

	mpg	cyl	disp	hp	drat
Mazda RX4	21.0	6	160.0	110	3.90
Mazda RX4 Wag	21.0	6	160.0	110	3.90
Datsun 710	22.8	4	108.0	93	3.85
Hornet 4 Drive	21.4	6	258.0	110	3.08
Hornet Sportabout	18.7	8	360.0	175	3.15
Valiant	18.1	6	225.0	105	2.76
Duster 360	14.3	8	360.0	245	3.21
Merc 240D	24.4	4	146.7	62	3.69
Merc 230	22.8	4	140.8	95	3.92
Merc 280	19.2	6	167.6	123	3.92
Merc 280C	17.8	6	167.6	123	3.92
Merc 450SE	16.4	8	275.8	180	3.07

Primeros pasos

¿Cómo empezar a inlcuir código en un archivo .rmd?

Para empezar abrí un archivo nuevo, vas a encontrarte con algo de esta pinta:

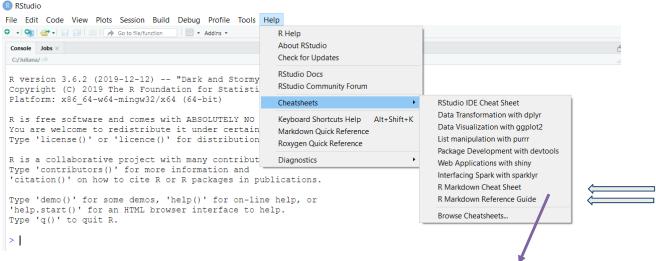

Podés compilarlo tal como está y ver que te devuelve con Ctrl+Shift+k o apretando en Knit.

Te recomendamos que hagas knit seguido, para que no te encuentres con todos los errores al final.

- · I was the first person and only woman to win a Nobel prize in two different sciences.

Mitchell O'Hara-Wild

Clayton, Victoria, Australia

0+61 400 250 421 | Mail@stschallsharavild.com | Smitchellsharawid | Smitchellsbarawid | Fmitche

Education

Monash University

Clayton, Australia Mat 2017 - Nov. 2017

BCow (Hons) in Econometrics

- · Recipient of the Econometrics Honours Memorial Scholarship, Dean's Honour, Dean's Commendation, and best in class for 5 units.
- Honours research project was to develop a state space model for quickly forecasting time series with multiple seasonalities Studied units include Bayesian and frequentist econometrics, advanced statistical modelling and computational science.

Monash University

BCOM IN ECONOMETRICS, BSc IN MATHEMATICAL STATISTICS AND COMPUTATIONAL SCIENCE

Clayton, Australia Mar. 2011 - Nov. 2016

Recipient of the Monash Community Leaders Scholarship, International Institute of Forecasters Award, and best in class for 4 units.

- Mentor for the Access Monash Ambassador Program (2015 and 2016)
- Participant of the Vice-Chancellor's Ancora Imparo Student Leadership Program (2014)
 Studied a broad collection of units covering many aspects of data science. The three disciplines I majored in explored different perspectives. for working with data.

Data consulting experience

Nectric

Clayton, Australia Jon 2019 - Presunt

DATA SCIENTIST

· A variety of consulting projects with substantial spatio-temporal modelling tasks.

Monash University

Clayton, Australia Jon 2016 - Present

RESEARCH ASSISTANT

- Involved in many internal and external data projects of varying size and complexity.
 Projects typically feature large scale time series modelling or analysis, cross-sectional modelling and creating tools for improving workflows.
- . Consulting project clients Include: Huawel, Monash University, R Consortium, NSW Chief Scientist office, Diabetes Lab and Tennis Australia.

Cheltenham Australia

Feb. 2015 - Mor. 2015

. Improved business reporting with interactive visualisations, and model-based anomaly detection.

Teaching experience.

UNIVERSITY

My teaching quality at Monash University has been consistently recognised with positive student evaluations and individual praise from my students. I have also been awarded congratulatory letters for outstanding student evaluations for three of my units (ETF5231, ETC3580, ETC3550), which indicates that student feedback for the unit is among the best in the university.

Monash University

Clayton Australia ST 2018 - Present

Caulfield, Australia

512016 - 572018

TEACHING ASSOCIATE

 Advanced statistical modelling (ETC358b)
 Data modelling and computing (ETC1010)
 Applied forecasting for business and economy. ing for business and economics (ETC 3550)

Monash University

TEACHING ASSOCIATE

Business forecasting (ETF3231/ETF5231)

Mathematics for business (ETF2700)

In addition to sessional teaching, I occasionally teach data analysis skills using R at workshops.

Tidy Time Series and Forecasting in R

estudio conf. San Erancisco.

California

Two day workshop with Rob Hyndman on forecasting using tidyverse workflows.

Interactive documents with Shiny

CSIRO Conborna Australia

. Two day intermediate workshop on developing of shiny applications.

January 2020 MITCHELL O'HARA-WILD - CURRICULUM VITAE Department of Biology, Tufts University D+1 925-788-9855 ☑ Eric.Scott@tufts.edu ericrscott.com ₩ LeafvEricScott O Aariq

Eric R. Scott

Education

2014-2020 PhD, Tufts University, Medford, MA.

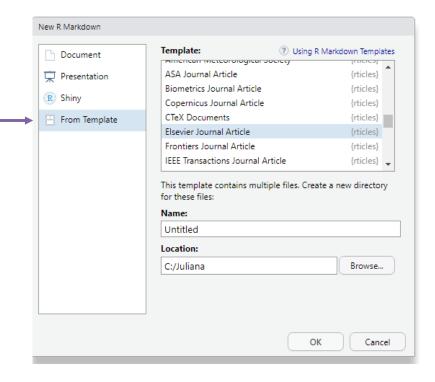

- o Indirect and interactive effects of climate and herbivory on tea metabolites and quality o PI: Colin Orians
- 2007-2010 MS, University of Illinois at Urbana-Champaign, Urbana, IL.
 - o Interactions between habitat and ungulate herbivory limit the spread of Ipomopsis aggregata (Polemoniaceae).
 - o PI: Ken Paige
- 2002-2006 B.A., Whitman College, Walla Walla, WA.
 - o Behavioral evidence for host-race formation in the gall midge Dasineura folliculi (Felt).

Research Experience

- 2019-2020 Graduate Research Assistant, Crone Lab, Tufts University.
 - o Developed the R package bumbl which provides functions for modeling bumblebee
- 2014-2020 Graduate Researcher, Tufts University, Medford, MA.
 - o Conducted collaborative, interdisciplinary research on the effects of climate change and insect herbivory on tea metabolites
 - o Designed and carried out field, greenhouse, and lab experiments at the Tea Research Institute in Hangzhou, China and at Tufts University
 - Developed and validated a novel, high-throughput method for sampling plant volatiles in the field
 - o Mentored undergraduate assistants in computational, lab, and field experiments
- 2017-2018 NSF grant coordinator, Tufts University, Medford, MA.
 - o Schedule and coordinate conference calls and meetings with collaborators
 - o Maintain public-facing website for grant
 - o Communicate research findings to general public via blog posts and social media
 - 2010 Research Assistant, Colorado Natural Heritage Program, Fort Collins, CO.
 - O Worked as part of a team to survey remote wetlands throughout Colorado
 - o Carried out soil and vegetation sampling protocols and plant identification in the field
- 2007-2010 Graduate Researcher, UIUC, Urbana, IL.
 - O Successfully completed research projects investigating the effects of soil nutrients and herbivory on compensatory growth and chemical defenses in a wildflower
 - Mentored undergraduate research assistants

Posterdown

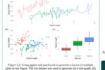

Using posterdown to generate reproducible conference posters via RMarkdown > Knitr > Markdown > Pandoc > HTML/CSS > PDF workflow

Table 1.1: Table caption.						
Sepal.Length	Sepal Width	Petal Longth	Prod.Width			
5.1	3.5	1.4	9.2			
4.9	3.0	1.4	9.2			
4.7	3.2	1.3	0.2			
4.6	3.1	1.5	0.2			
5.0	3.6	1.4	0.2			

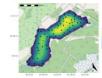

Make better posters with RMarkdown + posterdown.

Transition from poster to manuscript with ease!

A Better Reproducible Poster Title

Introduction

Methods
